Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22, 23, 26, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Dowdy U.S. Patent 6,497,619.

In Figs. 3, 4A and 4B, Dowdy et al disclosed a training sword comprising a sword body (52) having a blade part and an incised recess (56,58); a plurality of supporting means (62,64) formed in the incised recess; a shock-absorbing means (68) joined to the supporting means formed in the incised recess; a grip (Fig. 3) at an end of the sword; a shock-absorbing means (66) formed at a front end of the sword body; Fig. 4A shows the sword body is getting narrower from an end joined to the grip to an opposite end of the grip.

Allowable Subject Matter

Claims 1-21 are allowed.

Claims 24, 25, 28, 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
